PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with a strong foundation in modern programming and web technologies. Interested in building responsive and user-friendly applications with hands-on project experience, problem-solving skills, and logical thinking. Eager to contribute to dynamic software development teams.

EDUCATION

Government Engineering College Mosalehosahalli 2023 – 2027

B.E. Electrical & Electronics Engineering, CGPA: .0, 7th Semester, Government PU College, Soraba, Pre-University Course (PUC), Government High School, Hale Soraba, Secondary School Leaving Certificate (SSLC)

CGPA: 7.61/10

TECHNICAL SKILLS

Languages	Matlab
Database Systems	MySQL, MongoDB, PostgreSQL
Developer Tools	Git, GitHub, Google Collab, AWS Cloud, VS Code
Web Technology	HTML, CSS, JavaScript, REST APIs
Frameworks	React.js, Node.js, Express
Soft Skills	Project Management, Communication Skills, Leadership, Team Work and Collaboration

PROJECTS

Real-time Fault Detection and Location Monitoring on Smart Grids using IoT

Developed an IoT-based system for real-time monitoring of electrical faults in a smart-grid environment. Focused on fault detection and location monitoring to improve system reliability and reduce response time. Integrated sensors, a microcontroller, and communication concepts for monitoring electrical parameters. Designed the project with emphasis on practical fault identification and remote monitoring.

A Solar Power Generation System with a Seven-Level Inverter

Studied a solar power generation system using a seven-level inverter for improved power conversion. Worked with concepts related to solar energy, DC power conversion, multilevel inverters, and power electronics. Used simulation concepts for analysing the performance of the proposed system.

ACTIVITIES

Participated in academic/project activities related to electrical and electronics engineering. Interested in renewable energy, power systems, IoT applications, and practical engineering projects.

INTERESTS

Reading self-development content, learning new technical concepts, and sports.
