CAREER OBJECTIVE

Adaptable Computer Science student skilled in Python, SQL, data structures, and web frameworks like Django and Flask. Experienced in database integration, data ingestion pipelines, and automation scripts for scalable software applications.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering 2023 – 2027 (Expected)
Visvesvaraya Technological University (VTU), Belagavi

Class XII – Science (Score: 88.66%) 2023
Karnataka School Examination and Assessment Board

Class X (Score: 86.72%) 2021
Karnataka Secondary Education Examination Board

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, SQL, JavaScript (ES6+)
- **Web & Backend Frameworks:** Django, Flask, Node.js, React, Ember, HTML5, CSS3, Fetch API
- **Databases & Data Warehousing:** Snowflake (Stored Procedures, Virtual Warehouses, Bulk Transactions, Data Ingestion), MongoDB (NoSQL), SQL (Relational Schema Design)
- **Core CS & Methodologies:** Data Structures, Algorithms, Object-Oriented Programming (OOP), Automation Scripts, Database Architecture, Exception Handling
- **Tools & Platforms:** Git, Version Control, Basic Machine Learning, Problem Solving

PROJECTS

College Event Management System **Software Developer**

- Engineered a scalable full-stack web application utilizing Python, SQL, JavaScript, Node.js, and MongoDB.
- Implemented secure database connection strings, bulk data processing, dynamic scheduling APIs, and custom exception handling to streamline operations.

EXPERIENCE & CERTIFICATIONS

- **GUVI – HCL:** How to Start a UI/UX Design Career Without Prior Experience, GUVI Geek Networks (April 2026)
- **TCS iON Career Edge – Young Professional:** Professional Readiness and Career Development
- **Youth Employment Program:** Employability and Professional Skills, TCS iON

LANGUAGES

- English, Kannada, Hindi
